

PRESCRIPTION DRUG BENEFIT MVP

Prescription drug benefits are provided through the pharmacy benefit plan manager, Express Scripts. All provisions stated in the Schedule of Covered Services and Provisions will also apply to the Prescription Drug Benefits. All Benefits will be paid as stated in the Schedule of Covered Services and Provisions for charges made by a participating pharmacy for treatment of You or Your eligible Dependents Illness or Injury. A covered charge is considered made on the date the prescription is dispensed by the pharmacist.

This Plan does not cover any secondary claims on Prescription Drugs. Prescription Drugs will only be paid on claims incurred by members with primary Prescription Drug coverage through the Butler Health Plans—meaning there is no coordination of benefits for Prescription Drug claims, even when another plan has paid primary.
