

Get the Facts on the Smart90 Pharmacy Network for Long-Term Maintenance Medications

Smart90® is a money-saving feature of your prescription plan. It makes it easy for you to fill prescriptions for your maintenance medications (those drugs you take regularly for ongoing conditions) at a lower cost. With Smart90, you must fill 90-day supplies of your maintenance medications at a network pharmacy.

There are Two Ways to Save on Your Maintenance Prescriptions

1. For savings and convenience, take advantage of home delivery from the Express Scripts PharmacySM. Get 90-day supplies of your medications delivered directly to you, safely and securely, with free standard shipping.¹

Log in at express-scripts.com or call 866.890.1419 to learn how to get started with home delivery. Express Scripts can work with your doctor to have a new 90-day prescription sent right to you.

Or, you can transfer your maintenance prescriptions to a network Smart90 retail pharmacy nearby. The pharmacist will contact your doctor to get a new 90-day prescription.

Your copayment for your 90-day supply will be the same whether you fill your prescriptions through Express Scripts home delivery or at a Smart90 network pharmacy.

Answers to Your Questions about Smart90

When does Smart90 start for Butler Health Plan members?

The Smart90 pharmacy network began January 1, 2018. If any of your current prescriptions are eligible for Smart90, Express Scripts will send you a personalized letter with a list of impacted medications² and nearby participating pharmacies. For any new prescriptions, you will be able to fill three prescriptions for up to 30-day supplies at your current pharmacy before you have to transition to a 90-day supply through the Express Scripts Pharmacy or a Smart90 retail pharmacy.

I already use home delivery to get my maintenance medications and want to keep it. Do I need to change anything?

No. If you're using home delivery from the Express Scripts Pharmacy for your long-term medications, you do not need to do anything further.

Can I transfer a current prescription from home delivery to a Smart90 retail pharmacy?

If your current prescription has fills remaining, you may contact a participating Smart90 retail pharmacy to obtain your prescription. The pharmacist **must** call the number on your Express Scripts ID card, 866-275-0044, to transfer your refills on file.

How can I find a Smart90 retail pharmacy that fills 90-day supplies?

Log in or register at express-scripts.com/90day, select "Prescriptions," and click "Find a Pharmacy" to find your closest pharmacy that fills 90-day supplies. Pharmacies include Kroger, Meijer, Walmart and more.

Do I need a new prescription to start using a Smart90 retail pharmacy?

Yes. If you do not have a current 90-day prescription, a new prescription is needed. Contact your doctor or ask the local pharmacist to contact your doctor to obtain a new prescription.

¹ Cost of standard shipping is included as part of your prescription plan.

² The medications affected by this plan limit may change. To find out whether your medication is affected, log in at express-scripts.com and select "Price a Medication" in the Prescriptions menu. Then select your medication in the Search menu and click "View coverage notes" on the results page.
