

WELLNESS CREDIT & FREE HEALTH RISK ASSESSMENT FAQ

What is a Biometric Screening/Health Risk Assessment (HRA), and why do I need one?

The Biometric Screening/Health Risk Assessment (HRA) provides a comprehensive picture of your overall health. This powerful tool helps to identify areas where you can work to improve including high cholesterol, high blood pressure, diabetes, nutritional concerns and many more.

Completing your Biometric Screening/HRA is an important first step on your path of wellness and preventive healthcare. The Biometric Screening/HRA will give your healthcare team opportunity to discuss a plan of action and give you all the tools you'll need. Your Premise Health team is with you all the way, available to work with you personally and confidentially. The Biometric Screening/HRA is FREE to employees & spouses enrolled in the Butler Health Plan.

What will happen during my Biometric Screening/HRA?

During your appointment, the team will record your blood pressure, height, weight, waist circumference, along with the blood draw. The blood draw will include cholesterol, triglycerides, iron levels, glucose levels, and A1C if glucose is higher than 100, TSH for women over 50, kidney and liver functioning and more.

When is the time frame to be eligible for the Wellness Credit?

- January 1, 2026 - October 31, 2026

Who is eligible and when will I receive my \$150 Wellness Credit?

- Employees and/or Spouses in the medical plan are eligible
- The \$150 credit will be applied to your medical plan beginning January 1, 2027 and applied to:
 - Deductible for PPO and HDHP plans
 - Out-of-pocket maximum for TrueCost plan
